The Jade Buddha for Universal Peace

*The Buddha's relics from ten directions,
Today, is converged as the Jade Blessed One,
Pure – Impure is non-dualistic,
Saints and lay ones are gathering at the same world.*

*Five-colours cloud are illuminating the universe,
Jade lotus bloom from the earth,
People from five continents with the blessing,
All suffering is cured by his compassion.*

*Canada, the birth-place of the gems,
With so skillful hands from Thai,
And Ian Green with the great boddhi heart,
Guru Zopa connected and fulfilled all conditions.*

*Buddha come I vow to return,
Beings in six realms keep the love and kindness,
Dear brothers, just no more mislead,
The Jade Buddha just for the peace of our world.*
